I thourghy enjoyed this game! Me and my sister love co op games and I wish there were more good puzzle ones like We Were Here. I was first put off by the fact the games cost, but I understand as a devolper cant keep thier doors open for free. This game looks great graphicly, the creepy noises set the mood, and the puzzles were challending and fun! (BTW screw the armor suits and the weapons. I never knew how much I didn't know how to describe a weapon until that room.)

Overall, I am looking so forward to anything coming from this devloper! Thank you for the fun game!!!
